

## MAIN AGENDA

### THE MAIN AGENDA IS TO RISE AND CHANGE THE GOVERNMENT

Having been taught about our rights and having been educated about our civil rights. It is all in our hands to decide which way to take.

People of Zimbabwe we have been oppressed for a long time because we did not know about our right and international obligations.

We have lost ubuntu. Dignity and respect because of the type of leadership we have.

They are corrupt. They are stealing from people to make themselves rich.

People have signed the petition now.

We have petitioned the Government through its ministry in connection with Zesa unjustified bills, Loadsheddings and more unjustified activities.

People have lost jobs, properties and some have lost lives so let's all raise and come up in open and remove this government.

We are tired of President Mugabe and he must go by all means.

He is full of abuse of power with his ministers.

He has no respect of law. (His own laws and International Laws).

Everyone wants him out. Let's all rise and remove him now.

When the date is fixed you will be told.

We will do it. Others have done it in Libya, Sudan, Tunisia and Egypt.

Pass the message to the next person.
